

BRAND SERVICES is pleased to announce our new Facility Services Manager, John Mancuso.

January 7, 2012

John brings a 25 year history of supporting clients within the healthcare and industrial industries by maintaining fire and safety code compliance. John brings a unique level of skill and understanding to address our clients' needs. His understanding of the healthcare industry code compliance requirements in addition to Brand's existing broad range of hands on fire protection services will offer the industry an elevated level of service. John is also an active member in his community in Up State New York.

John and Brand's mission is to develop long term strategic partner relationships with healthcare providers. Our objective is to provide each client with a cost effective Fire and Life Safety 101 Code service that eliminates fire code deficiencies.

John can assist you with the following services:
