

## MONITORING SYSTEMS THE RIGHT WAY

By: John Mancuso

BRAND SERVICES is proud to announce that it is now an established Elite Channel Partner for Primex-OneVue™ Wireless for the Eastern United States.

The Primex OneVue™ Wireless Intelligent platform helps hospitals and nursing homes with regulatory compliance and asset protection with wireless temperature monitoring equipment and software, which provides:

- Recording – Monitoring through OneVue™ Intelligent Wireless Network
- Recording - temperature / humidity / differential pressure per regulatory requirements.
- Reporting - automated reporting and record keeping for regulatory audits.
- Alerting – via automated phone messages, text, e-mail, paging, and audible alarms to initiate action for asset protection.
- Cost Savings -reduce costs of BAS enterprise solutions.

The OneVue Intelligent Monitoring platform also supports compliance of Environment of Care (EOC):

EC02.06.01 EP13: Temp and Humidity Logs for ALL OR's, Cath Labs, and Sterile Storage Rooms (1 yr)

EC02.05.01 EP15: Air Exchange Rates, Air Pressure Relationships for ALL OR's, Cath Labs and Central Sterile Areas.

The Primex OneVue™ Wireless Intelligent platform helps support compliance and asset protection with wireless temperature monitoring equipment and software. The new Primex product line fits within BRAND mission of Protecting Lives and we are delighted to offer our customers this product line.
